

Fresh

The 2009 film “Fresh” looks at sustainable agriculture and the people who are changing the food system in America

Answer the following questions in your (400+ word) discussion of the film.

1. Why does the film promote the consumption of locally grown, organic foods?
2. Discuss the pros and cons of the factory farm system of raising livestock.
3. How are pesticides, genetic engineering, and environmental impact all related?
4. Has your view of food changed after viewing the film? Why or why not?
