**Remember: As per GHHS Policy, you have two days for each day absent to makeup assignments.**

## What We Did in Class:

Students researched decades of history, highlighting important events and laws related to environmental issues. This is an excellent review for the AP Exam!

## Procedure:

Since it is WAY too much work for you to make this timeline on your own, identify the year of each event/legislation below and place it in chronological order. Then briefly explain what happened with each.
